**TEMPORARY FULL-TIME SESSIONAL MATHEMATICAL SCIENCES**

The Department of Mathematical Sciences (Mathematics, Computing, Engineering and Physics) in Trinity Western University's Faculty of Natural and Applied Sciences invites applications for a temporary full-time sessional teaching position for 2012-2013 (two semester, eight month appointment.) Duties include teaching mathematics service courses for other departmental majors as well as mainstream courses for the Department of Mathematical Sciences. The candidate should be capable of teaching mathematics at all levels, including senior courses in a personal specialty. Subject to personnel and budget considerations, there is a possibility of future openings, so the department very much prefers applications from those capable of conversion to a tenure-track position. Thus, applicants should have a Ph.D. in pure or applied mathematics or statistics, though those additionally capable of teaching computing or physics courses and/or with a professional engineering background may also be considered.

The ability to be flexible is critical, but the applicant should have some background in statistics, as this is our major subject need at the present time. Other middle and upper level courses possibly needing coverage include some or all of analysis, differential equations, linear and abstract algebra, numerical analysis, geometry, and web development, though internal shifts are possible to tailor the position to the applicant. In addition, any possibility of a later conversion to tenure-track would also dictate that he/she should have or be capable of establishing an active research program.

Interested candidates are requested to complete the on-line application at <http://www.twu.ca/divisions/hr/join/faculty-positions.html>. Applications will be accepted until January 15, 2012 or until a suitable candidate is found, subject to budget approval. Please also forward a cover letter outlining interests, experience, and major contributions to teaching, research and practice along with a curriculum vitae to Judy Bartram, Executive Assistant to the Office of the Provost, Academics at [judy.bartram@twu.ca](mailto:judy.bartram@twu.ca).

Trinity Western University is a liberal arts university and seeks candidates who are committed to and support its evangelical Christian basis, mission and orientation. More information about Trinity Western's Department of Mathematical Sciences can be found at <http://twu.ca/academics/science/mathematical-sciences/default.html>. In accordance with Canadian immigration requirements, this advertisement is directed in the first instance to Canadian citizens or permanent residents.

**Posting Date:** November 10, 2011 – January 15, 2012
